

A floor plan diagram of a rectangular building. The building is divided into several rooms. At the top right is a rectangular area labeled 'DECK'. Below the deck is a large rectangular area labeled 'LIVING ROOM'. To the right of the living room is a rectangular area labeled 'KITCHEN'. On the left side of the building, there are two rectangular areas labeled 'BEDROOM', one at the top and one at the bottom. Between the two bedrooms on the left are two rectangular areas labeled 'BATH'. The diagram uses simple lines to represent walls and doorways. There are several doorways indicated by short lines perpendicular to the main walls. A horizontal line is drawn across the living room area, and another horizontal line is drawn across the kitchen area. There are also some vertical lines within the living room and kitchen areas, possibly representing furniture or structural elements.
